

“Recon Pocket PCs With 400 MHz Processors and Proven Reliability”

The next-generation TDS Recon X-Series rugged handheld computer delivers maximum performance and reliability in a lightweight, extremely rugged design that's easy to carry. Featuring optional embedded Bluetooth and 802.11g wireless, the waterproof Recon weighs just 17 ounces, meets military specifications for drops, vibration, and both high and low temperature operation, and runs Windows Mobile 6.0. The Recon works wherever and whenever you need it.

If portability, data security and maximum operating time are crucial to your work, you can count on the Recon. Its innovative modular design saves time and money on service and provides customization options to suit your different applications. You never want to compromise in your work. With the Recon, you don't have to.

The Recon is available in both 200 MHz and 400 MHz processor speeds. Due to the minimal price difference, only the 400 MHz processor is recommended. The Recon 400X is available in a 1) plain configuration or 2) with Bluetooth or 3) Bluetooth plus Wi-Fi 802.11. The Recon 400X with Bluetooth is the biggest seller by far.

The Recon 400X with Bluetooth is a perfect companion with the SXBlue II GPS unit. This combination gives the user the capability to collect sub-meter GPS positions. Both the Recon and the SXBlue are waterproof and rugged, so they work in almost any environment. There are no cables between the SXBlue II GPS unit and the Recon 400X with Bluetooth. This make use in rugged environments a perfect fit.

Optional SXBlue II GPS Unit

#TDSRecon 400X	\$1,175.00
#TDSRecon 400X with Bluetooth	\$1,299.00
#TDSRecon 400X with Bluetooth/802.11	\$1,375.00
